

Improving Observing Network Coordination: A Cyberinformatics Forum

17 – 19 May 2010

updated 18 May 2010

Workshop Participants:

Luis Marcelo Achite (Inter-American Institute for Global Change Research: IT)

Dan Andresen (Kansas State University: Computing & Information Sciences)

Steve Aulenbach (NEON, Inc.)

Peter Backlund (National Center for Atmospheric Research: Integrated Science Program)

Kathleen Baker (Western Michigan University: Geography)

Archer Batcheller (University of Michigan)

Willaim Bergen (Raytheon: Ocean Observatories Initiative)

Luis Bermudez (Southeastern Universities Research Association)

Steven Berukoff (NEON, Inc.)

Mark Bradford (National Center for Atmospheric Research: Earth Observing Laboratory)

Benjamin Branch (Elizabeth City State University: Center of Excellence in Remote Sensing Education & Research)

Eric Bridger (Gulf of Maine Research Institute: Ocean Data Products Group)

James Brunt (Long Term Ecological Research Network: LTER Network Office)

Lawrence Buja (National Center for Atmospheric Research: Research Applications Laboratory & Integrated Science Program)

Randy Butler (University of Illinois)

Bonnie C. Carroll (National Biological Information Infrastructure)

Yoori Choi (CUAHSI)

Mike Daniels (National Center for Atmospheric Research: Earth Observing Laboratory)

Steve DeLong (University of Arizona: Biosphere 2 - B2 Earthscience)

Sheldon Drobot (National Center for Atmospheric Research: Research Applications Laboratory)

Peter Fox (Rensselaer Polytechnic Institute: Tetherless World Constellation - Earth & Environmental Sciences)

James Frew (University of California, Santa Barbara)

Christian Fritz (University of Southern California: Information Sciences Institute)

Felimon Gayanilo (University of Miami: Center for Computational Science)

Arthur Gaylord (Woods Hole Oceanographic Institution)

Henry Gholz (National Science Foundation: Division of Environmental Biology)

Yolanda Gil (University of Southern California: Computer Science)

Greg Guibert (National Center for Atmospheric Research: Integrated Science Program)

Ted Habermann (National Oceanic Atmospheric Administration: National Environmental Satellite, Data, & Information Service & National Geophysical Data Center)

Tony Hays (NEON, Inc.)

Matthew Howard (Texas A & M University: Department of Oceanography)

Kolby Jardine (University of Arizona: Biosphere 2)

Scott Jensen (Indiana University: Computer Science)

Matthew Jones (University of California, Santa Barbara: National Center for Ecological Analysis & Synthesis)

Thomas Kampe (NEON, Inc.)

Eric Kihn (National Oceanic Atmospheric Administration: National Geophysical Data Center)

Jack Kleinert (Raytheon Corporation: Intelligence & Information Systems)

Meredith Lane (National Biological Information Infrastructure)

Kerstin Lehnert (Columbia University: Lamont-Doherty Earth Observatory)

W. Christopher Lenhardt (Oak Ridge National Laboratory: Environmental Data Science & Systems)

Doug Lindholm (Laboratory for Atmospheric and Space Physics (LASP))

Andrea McCurdy (Ocean Leadership: Ocean Observatories Initiative)

Michael McMahon (University of Nevada, Reno: Computer Science & Engineering)

Carol Meyer (ESIP Federation - Foundation for Earth Science)
Don Middleton (National Center for Atmospheric Research: Computational & Information Systems Laboratory)
Jim Myers (University of Illinois: National Center for Supercomputing Applications)
David Neufeld (University of Colorado: Cooperative Institute for Research in Environmental Sciences)
Michael Palecki (National Climatic Data Center)
Carol Park (National Center for Atmospheric Research: Research Relations)
Mark Parsons (University of Colorado: National Snow & Ice Data Center)
Michelle Rangel (National Center for Atmospheric Research: Integrated Science Program)
Rob Raskin (Jet Propulsion Laboratory: Science Data Engineering & Archiving)
Rob Redmon (National Oceanic Atmospheric Administration: NGDC / Solar & Terrestrial Physics)
Allan Reynolds (NEON, Inc.)
Paula Robinson (National Center for Atmospheric Research: Integrated Science Program)
Alyssa Rosemartin (USA National Phenology Network)
Mark Schildhauer (National Center for Ecological Analysis & Synthesis)
Trina Shartsis (University of Arizona: Biosphere 2)
David Tarboton (Utah State University: Civil & Environmental Engineering)
Karan Vahi (USC Information Sciences Institute: Advanced Systems)
Frank Vernon (University of California, San Diego: Scripps Institution of Oceanography)
Ronald Weaver (University of Colorado: NSIDC-Cooperative Institute for Research in Environmental Sciences)
Brian Wee (NEON, Inc.: External Affairs)
Jake Weltzin (USA National Phenology Network)
Patrick West (Rensselaer Polytechnic Institute: Tetherless World Constellation)
Scott Wiant (NEON, Inc.)
Olga Wilhelmi (National Center for Atmospheric Research: Research Applications Laboratory & Integrated Science Program)
Mark Williams (University of Colorado: INSTAAR - Geography)
Anne Wilson (University of Colorado: Laboratory for Atmospheric and Space Physics (LASP))
Ilya Zaslavsky (University of California, San Diego: San Diego Supercomputer Center)
Stephan Zednik (Rensselaer Polytechnic Institute: Tetherless World Constellation)
Mikhail Zhizhin (National Center for Atmospheric Research: National Geophysical Data Center)
